

My certs links

Redis just announced free self paced classes, available until May 12th:
<https://university.redislabs.com/> (registration required)

Classes include:

RU101: Introduction to Redis Data Structures

For those new to Redis, this course offers a thorough introduction to Redis and its data structures.

RU202: Redis Streams

A logical continuation to RU101, the Redis Streams course covers the most sophisticated Redis data structure: Streams.

RU201: RediSearch

In RU201, you'll learn all about full-text indexing in Redis using the RediSearch module.

RU102J: Redis for Java Developers

Write a full-fledged application with Java and Redis! This language course describes many of the patterns you'll use to write efficient Java code against Redis.

RU102JS: Redis for JavaScript Developers

This course takes a similar approach to RU102J, but is for developers wishing to learn more about best practices for using Redis in Node.js applications.
